# HP Setup Instructions

Quick Setup

1

NOTE: Your computer has a preinstalled battery. Before you press the power button to turn on the computer for the first time, make sure that the AC adapter is connected to the computer.

2

How to change your notebook into an entertainment stand

Raise the display, and then rotate the display backward to a stand position (about 315 degrees).

How to change your notebook into a tablet

Raise the display, and then rotate the display backward until the display back is flush with the computer bottom (360 degrees).

Your computer is protected by a free subscription to McAfee LiveSafe™ service for a limited time from the first time you use the computer. You will have the option to purchase McAfee LiveSafe service upon expiration of the subscription. McAfee LiveSafe service helps protect your identity, your data, and your devices with a single subscription.*

Software terms

By installing, copying, downloading, or otherwise using any software product preinstalled on this computer, you agree to be bound by the terms of the HP End User License Agreement (EULA). If you do not accept these license terms, your sole remedy is to return the entire unused product (hardware and software) within 14 days for a full refund subject to the refund policy of your seller.

For any further information or to request a full refund of the price of the computer, please contact your seller.

Limited Warranty

You can find your HP Limited Warranty located with the user guides on your product and/or on the CD or DVD provided in the box. In some countries or regions, HP may provide a printed warranty in the box. For countries or regions where the warranty is not provided in printed format, you can request a copy from http://www.hp.com/go/orderdocuments. For products purchased in Asia Pacific, you can write to HP at Hewlett Packard, POD, P.O. Box 200, Alexandra Post Office, Singapore 911507. Include your product name, and your name, phone number, and postal address.

Go wireless

Select the network icon in the lower-right corner of the taskbar, and then connect to one of the available networks.

– or –

Type `wireless` in the taskbar search box, and then select **Connect to a network**.

NOTE: To set up a WLAN and connect to the Internet, you need a broadband modem (either DSL or cable) (purchased separately), high-speed Internet service purchased from an Internet service provider, and a wireless router (purchased separately).

Locate system information

Depending on your product, a service label is either affixed to the bottom of the computer or is located inside the battery bay or beneath the service door.

In Windows, briefly press the **fn**+**esc** key combination to display the System Information screen.

Find more information

Windows products — To learn more about Windows and to access help topics, select the **Start** button, and then select the **Get started** app.

To access the user guides, type `support` in the taskbar search box, select **HP Support Assistant**, select **My PC**, select the **Specifications** tab, and then select **User guides**.

Linux products — Double-click the **HP Documents** icon on the desktop.

FreeDOS products — On the Boot Menu, select **HP Documents**.

NOTE: You do not need to connect to the Internet to access the user guides.

NOTE: A *User Guides* disc is included with some products.

Feedback on this document

To help us improve this document, please send any suggestions, comments, or errors to doc.feedback@hp.com. Include the document part number (located near the bar code) when submitting your feedback.
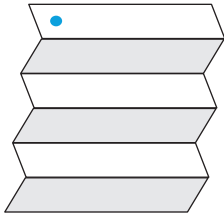

Contact support

To resolve a hardware or software problem, go to http://www.hp.com/support. Use this site to get more information about your product, including links to discussion forums and instructions on troubleshooting. You can also find information on how to contact HP and open a support case.

Replace this box with PI statement as per spec.

Navigating the Windows Start screen

The Windows Start screen provides a central location where you can access your information and email, browse the Web, stream videos, view photos, and access your social media websites. Depending on your product, you can use a keyboard and mouse, a TouchPad, or a touch screen to navigate the Windows Start screen.
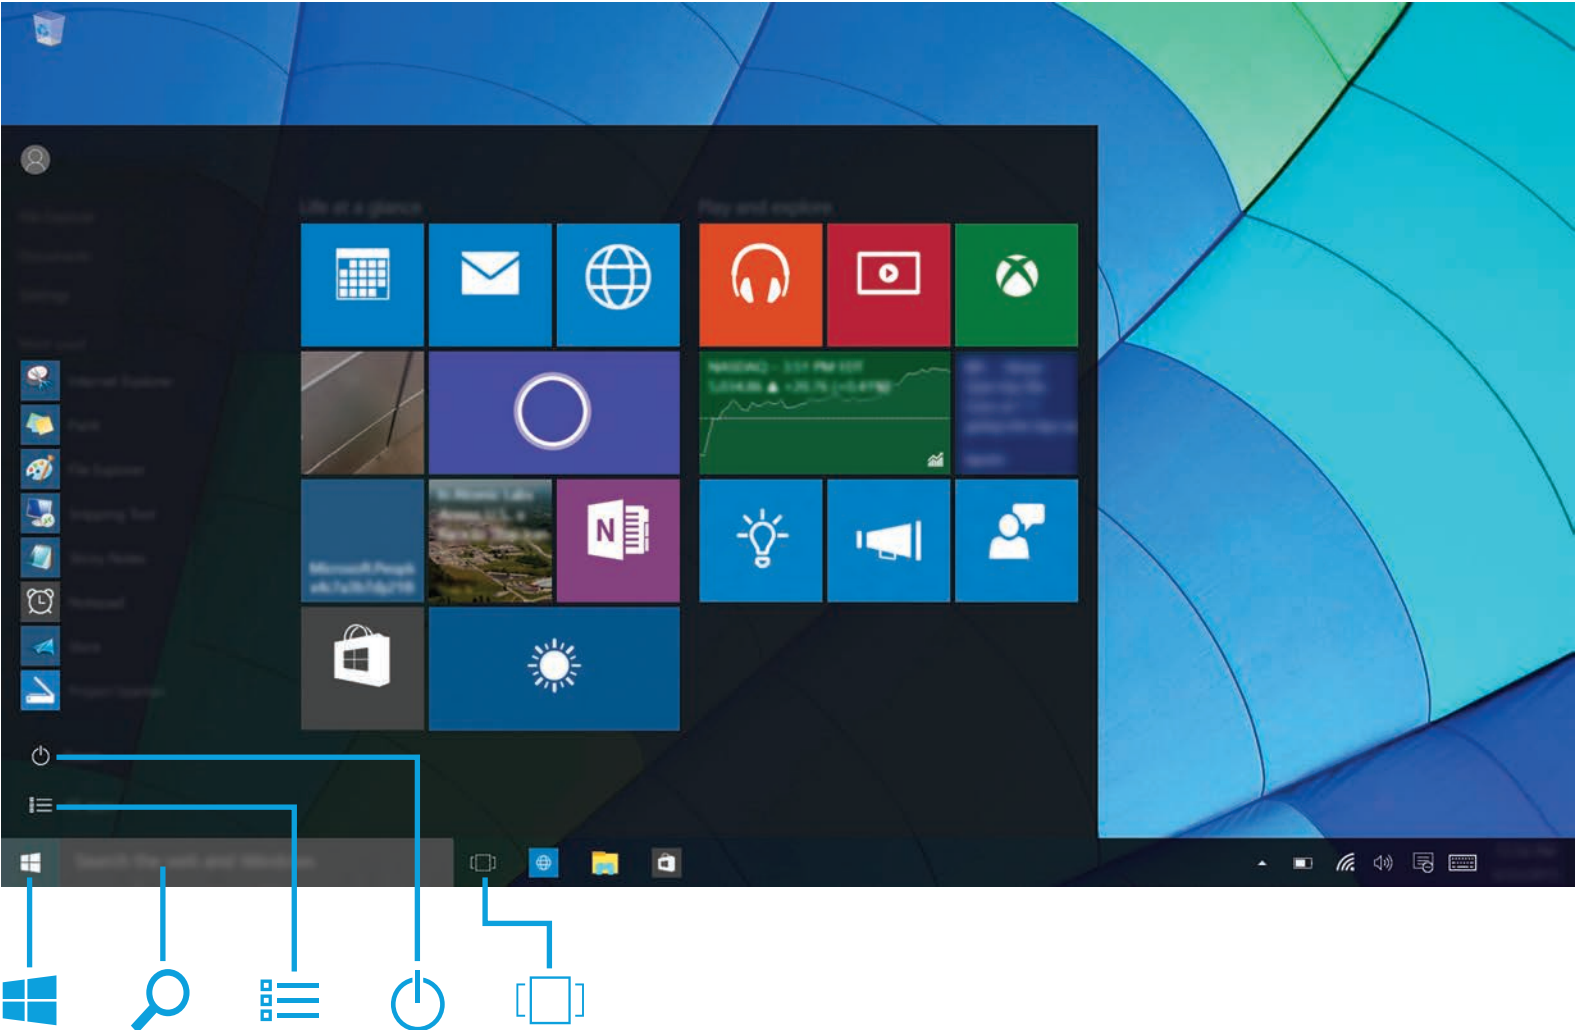

Display the Start menu

Select the **Start** button ⊞ in the lower-left corner of the taskbar.

Search

In the taskbar search box, begin typing the name of an app, setting, file, or Internet topic.

List your apps

Select the **Start** button ⊞ , and then select **All apps** ≣.

Shut down your computer

Select the **Start** button ⊞ , select the **Power** icon ⏻, and then select **Shut down**.

Switch between open apps

Select the **Task view** icon [▢] in the taskbar.

NOTE: The appearance of the Windows screen may vary.

Touch Gestures

Use these common touch gestures with the TouchPad and, on select products, with a touch screen. For information about additional gestures, refer to the user guide included with your computer. To locate the user guide, see the "Find more information" section of this poster.

Tap or double-tap to select
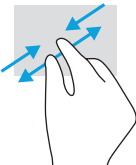

Two-finger pinch zoom

Two-finger click

(**TouchPad only**. Same as right-clicking with mouse.)
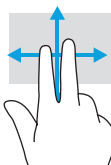

Two-finger scroll

(**TouchPad only**)

One-finger slide

(**touch screen only**)

NOTE: Some computers, apps, and files do not support all touch gestures.
